ORDERING FORMAT

■ Ques. Ordering schedule for uniforms? Timeline for refill orders?

- Ans. Depending upon the availability of fabric, If the fabric is in stock the production will take 20 - 25 days , if fabric is not in stock, maximum 60 days extra will be requiring for fabric procurement. In case of refilling orders same system applies as per fresh orders.

■ Ques. What should be the ordering quantity?

- Ans. If you plan to order for 1000 students then average quantity should be around 15 - 20 percent extra as per sizes. That is for 1000 students you should procure 1200 units.

■ Ques. Sizing?

- Ans. We operate on a standard size format made by our expert pattern makers which is generally in sync with current market trend. So, we request you to study our size chart and accordingly order uniforms as per your expertise based on our size fit.

■ Ques. Odd size?

- Ans. As for odd sizing . We request to obtain the fabric from us and par it to end client and ask them to get it stitched as per their size and if this is not possible then we will accept odd size orders. The size has to be provided by client and we will try to supply it as soon as possible, but we cannot confirm any supply schedule.

■ Ques. Why advance payment is a must factor during order?

- Ans. It must be noted all school uniforms are customized manufactured as per the requirement of schools/buyers. Hence, the nature of school uniform orders itself is customized-designed based. The whole value chain in uniforms from raw material to finished product has now become cash & carry basis. Therefore, any orders in school uniforms requires minimum 50% Advance payment .
